Thinking Out Loud

By H. M. L.

Do any of the old timers of Nevada City remember the "Hoosier Schoolmaster"? It might be just as well to re-read that delightful little volume, because this country beginning next January is going to school again to a Hoosier schoolmaster named Wendell Wilkie. The bad boys (fifth columnists) are going to take a sound trouncing with Ma Perkins no longer present to hide them in her "liberal" petticoats. "Tommy the Cork," Cohan & Company under towering dunce caps will sit on their stools and watch the regeneration of a great nation. They will see all the text books on near totalitarianism and near communism tossed into a big red bellied national stove, while the pupils will study a new book on modern America and the role it can and will play in world affairs.

We shall have more action and less dulcet crooning on the radio. The newspapers will head line things thoroughly done in this country instead of nightmares from European dream books. The Augean stables of the New Deal will be cleaned out and into them will be popped the agents of Stalin, Hitler and Mussolini, to learn, God willing, that there is still one democracy that can defend itself internally and externally.

It will not be an easy battle. The general flabbiness engendered by the new Deal will not quickly yield to patriotic discipline. The clear call to American patriotism will find laggards and parasites in rebellion. The groups who have sucked lustily at U. S. Treasury teats are going to put up a mighty fight. But at last the people have a real American champion, who knows America in all its historical (Wendell Wilkie has taught history), sociological, (he has worked with his hands among the common people, in Wyoming, California, and Texas) industrial, (he heads a group of 25,000 utility workers, who worship him) and political aspects.

Wendell L. Wilkie is no dilettante in any of these phases of American life. He has never sold to gullible Americans German marks on a gamble that they might one day be worth more than their weight as paper. He has never made a promise to his corporation that he would balance the corporation budget, six years running, and failed even to attempt it. He has never threatened anyone with a loud voice and flouished a feather duster in a menacing manner. He has never insulted leaders of other corporations with which his corporation does a lucrative business.

Wendell Wilkie is an American Hoosier with his feet on the ground and his head packed with "down east" common sense. He has made a great host of friends in the seven Southern states where his utility operates and provides electric energy at lower prices than the Federal pampered TVA in Tennessee, and don't be surprised if some of these Southern states give Wilkie a majority come next November.

This country is going to like Wendell Wilkie as a man, as a good business administrator, and as thorough going American who knows that the crying need, both for recovery and for national defense, is to put from 8 to 10 million idle men who have been pomised work for nearly eight years, back to work at last. No American citizen of patriotic upbringing relishes government pap. Billions have been poured out for relief while at the same time those who wanted to employ these millions were hounded and threatened until they were fraid that they themselves would at length be prodded over the hill to the poor house. Wilkie is in this fight to break the New Deal's "stabilized" depression, to turn the vision of great people once again toward the ideals of the Fathers and toward the destiny that waits upon the greatest democracy in history.

OFFICERS WORRY OVER JULY 4TH FIRE HAZARD

The approaching Fourth of July holidays is causing frowns of worry upon the brows of city, state and national fire fighting officials.

The State Division of Forestry office near Nevada City announces an investigator will patrol the Grass Valley district to watch against the throwing of cigarets, fireworks or other inflammable objects from the automobiles.

The Tahoe National Forest Service office here announces it is illegal to take fireworks into national forest areas.

Fire Chief Herbert Hallett of Nevada City announces it is against the law to set off fireworks within the city limit.

All fire officers are uniting in issuing a warning to campers, motorists, fishermen and other holiday celebants in an effort to prevent the starting of any disastrous fires.

DRUNKEN DRIVER TO REMAIN IN JAIL 2 YEARS

Two one year county jail terms and a long probationary period to follow was meted out today by Superior Judge George L. Jones to Delbert Fuller of Nevada City.

Fuller appeared for sentence on two charges, drunken driving and felonious assault. He was convicted by a superior court jury of the drunken driving charge and pleaded guilty to the assault count.

The defendant asked for probation on both charges. Probation Officer A. W. McGagin in his report recommended against it.

In granting probation, however, Judge Jones stated he was not inclined to make a felon of Fuller in view of the fact that the offenses were committed while he was under the influence of liquor. The judge said perhaps probation would have an effect in keeping the defendant from future violations of the law.

Judge Jones, in commenting upon the case, said he was in full sympathy with the two newscarriers injured when struck by Fuller's machine and with Deputy Eugene Blake, who was severely beaten by the defendant.

On the drunken driving charge Fuller was granted probation for five years, one year of which is to be spent in the county jail. He was given a similar sentence on the assault charge, the jail term to start upon the completion of his drunken driving sentence.

Fuller and Walter Barnes were arrested after their car struck and injured the two newscariers, Dean Schroyer and Darrell Malcolm, at Glenbrook on April 20th. While Deputy Blake, son of Captain Joseph Blake of the California Highway Patrol, was guarding them following their arrest, the two men turned on him and gave the young officer such a severe beating he was confined to the hospital for several days.

Barnes was tried in the superior court on an assault charge and a verdict of simple assault, a misdemeanor, was returned by the jury. Last week Barnes was sentenced to six months in the county jail by Judge Jones.

ACCUSED OF ISSUING FICTITIOUS CHECK

Charged with issuing a fictitious check, B. A. Beall, of Truckee, was bound over to the superior court to face trial at his preliminary hearing Friday before Justice of the Peace C. E. Smith at Truckee. The complaint against Beall was signed by John Ciardella of Truckee.

Sheriff Carl J. Tobiassen, District Attorney Vernon Stoll and Court Reporter Miles Coughlin were called to Truckee for the preliminary hearing.

Featured by a patriotic parade mammoth in its scope and a wild west rodeo, the program for Nevada City's two day July Fourth celebration has been completed by the chamber of commerce.

The gala festivities will start Wednesday night and from then until past the midnight hour Thursday there will never be a dull moment as Nevada City and surrounding communities appropriately celebrate the anniversary of the signing of the Declaration of Independence.

The California Hydraulic Mining Association and the William Bull Meek Chapter of E Clampus Vitus will join in the fun-making Wednesday night. Following the torchlight parade, in which the hydraulic miners and clampers will play a leading role, President George Hallock of the mining association will deliver an address at the P. G. and E. lot, on which a dance platform is being erected especially for the celebration. Dancing will follow until the small hours of Thursday morning.

TO BREAK RECORD

For the Fourth itself, the celebration committee, headed by George Gildersleeve, has arranged what is believed to be the most elaborate program of entertainment for a similiar fete in the history of Nevada City.

There will be street entertainment, a parade, special exhibition of acrobatic stunts by the Columbia Park boys, a wide variety of sports events, including a soap box derby, an air show, literary program, dancing and, of course, the thrilling wild west rodeo at Pioneer Park.

Practically all local organizations and business firms will have floats in the parade. At the present time preparations have been made for 42 units, not counting 15 units expected to be entered by Grass Valley firms and organizations. Harry Poole, former resident of Nevada City, is in charge of the Grass Valley float and unit arrangements.

ANTHEM FROM THE SKIES

The parade will be preceded by the playing of the Star Spangled Banner from the DeNeal Flying Service airplane. Art Remple's Radio Shop in Grass Valley is supplying the amplifying equipment for the novel stunt.

Dr. Walter Hawkins, mounted on a prancing steed, will be the grand marshal of the parade. City and county officials as well as the city council of Grass Valley will be in the line of march. One of the parade features will be the Sheriff's Posse, a group of deputy sheriffs, led by Sheriff Carl J. Tobiassen, on horses.

Advance reports indicate the Goddess of Liberty float entry and the Miss Columbia float will be remarkably beautiful. Deputy County Recorder Gertrude Wilde will be the Goddess of Liberty and Miss Catherine Tognarelli Miss Columbia.

ACROBATIC BOYS

The Columbia Park boys acrobatic exhibition will attract considerable attention. The Columbia Park youths who annually vacation at Lake Olympia, have always added a pleasing touch to the entertainment.

The sports program arranged for the afternoon of the Fourth has as its feature attraction the soap box derby. Approximately 15 youths have signed for the derby. Plenty of thrills and spills are anticipated as the soap box outfits roll down Broad Street from the Methodist Church to the Plaza. Also on the sports program is a water fight, which will follow the rodeo at Pioneer Park.

The rodeo is expected to attract thousands into Nevada City. Arangements are being made tc seat 10,000 at Pioneer Park. Top notch performers will compete in the rodeo events.

JUDGE JONES IN CHARGE

The literary program, which is being arranged by Superior Judge George L. Jones, will have as its principal feature the presentation of the American and Bear flags to Cary Arbogast, chairman of the board of supervisors, for the Nevada County Superior Courtroom. The presentation of the American Flag will be made by Frank Finnegan on behalf of the Elks Lodge. Eben Smart of Grass Valley will present the Bear flag in behalf of the Native Sons Lodge. Remarks on the flag will be made by Justice of the Peace Gildersleeve. Also a feature of the program will be the escorting of the goddess of liberty and Miss Columbia to the platform. The escorting will be by a special team of Nevada City girls.

Following the literary program dancing will start, continuing until the early hours of Friday morning.

YOUTH LIGHTS CIGARETTE - AND CAN OF GAS

Eddie Doolittle, Gold Flat youth, is confined to the Miners Hospital with second degree burns, suffered yesterday in a gasoline explosion on the Downieville highway.

The explosion occurred when Doolittle lit a cigarette while he and Herschel Lotz were preparing to pour gasoline from a can into the empty gas tank of the youth's car. The match ignited the gasolin fumes and Doolittle was severely burned about the face.

Hospital attendants said the burns would probably have been fatal if the gasoline can had been full. Doolittle's condition today was considered good and in a few days he will be able to leave the hospital.

NO FIREWORKS WHOOPIE IN U. S. FORESTS, PLEASE

The forest fire season in California is off to a flaming start, Regional Forester S. B. Show of the U. S. Forest Service observed after a series of conflagrations had given the rangers and CCC enrollees a hectic time in a number of national forests this past fortnight.

"Now with the Fourth of July coming along, fireworks will add to the danger," the forester declared. "The spirit of the Fourth does not call for shooting off fireworks in the woods or on highways. That sort of whoopie is much too hazardous for our forests and agricultural lands."

Despite stringent State and Federal laws, forest fires caused by fire crackers, smokers, campers and the other human agents amounted to 83 per cent of the state's 8730 fires last year. An area of 730,000 acres was burned.

Fire protection forces say that it will take forethought and cooperation on the part of the public to overcome this annual destruction.

With the present fire season in full swing and no letup expected until late fall forest rangers are keeping a close eye on the twice daily reports of the U. S. Weather Bureau. Local forecasts of impending changes in weather form the basis for the modern fire danger rating system.

Variations in temperature, relative humidity, wind velocity and direction, and 24 hour precipitation records may mean the difference between a small fire that can be controlled by one forest fireman and a widespread conflagration requiring the services of a thousand CCC enrollees and volunteer fire fighters.

Horace Curnow Improving—

Steady improvement is being shown by Horace Curnow, local bank official, who has been confined to the Miners Hospital for a week. It is probable he will be able to return to his home soon.

Mrs. H. P. Davis today heard from her mother, Mrs. Ebeltoft in Oslo, Norway, and from her daughter, Mrs. vanHall, in Zandvoort a small village near Amsterdam. Both are well and have enough to eat. She has not yet heard from her brother, who was manager of the ralway line from Narvik to the Swedish iron mines.

SHORT LIFE FOR NAZI PLANES

What is the "life expectancy" of a war plane?

The question is pertinent, in light of nationwide excitement over mass production af aircraft for U. S. defense. And the answer sheds considerable light on the basic differences in building air power in Europe and America.

Nazi Germany has created the word's largest air force. But it was built for a specific objective—bombing and combat. And, incredible as this may sound, Nazi production methods are reported to anticipate the average life of a war plane in action at not more than 24 to 25 hours!

Dominated by such an objective, an amazing mass production has been possible. It is as though you were to say, "Inferior materials and methods are good enough for something that will only last a day."

The American aircraft industry, which has its heart right here in California, has always built for maximum life and extreme efficiency, for it creates planes for peace as well as war. The U. S. Army and Navy and the air lines demand the highest standards in the world. The life expectancy of our planes is rated in months and years—not in hours.

Today American built aircraft, military and commercial, are the finest in the world—sturdier, faster, more maneuverable than anything Europe has been able to develop. But they are produced to American standards and by American methods. And under such standards and methods, mass production on a scale achieved in Europe cannot be accomplished overnight, even though the aircraft industry is preparing for any emergency.

NEVADA CITY TEAM FORFEITS A GAME

Nevada City was forced to forfeit yesterday's scheduled Foothill League game with Forest Hill. The forfeit was a blow to Nevada City's chances for the second half title.

The forfeit action was necessary, as all but a few of the local team's players are from the Lava Cap Mines and the men worked yesterday in order to have a two day holiday for the Fourth.

The local ball players defeated Forest Hill when the two teams battled in the first half by a score of 10 to 0.

NEW DEAL UPS GAS TAX TODAY

SACRAMENTO, July 1.—(UP)—California motorists today began paying approximately $750,000 in extra gasoline taxes each month under the national defense tax bill which goes into effect today, the state board of equalization estimates.

The estimate is based on the extra ½ cent tax applied to average monthly sales of 150,000,000 gallons of gasoline sold in the state.

The federal government already taxes gasoline sales at the rate of one cent a gallon, and the state levies a three cent tax. The total tax, consequently, will be 4½ cents on each gallon of gasoline sold.

Those attending the convention from here were Mrs. Minnie Young, president of the Banner Mountain auxiliary, Mr. and Mrs. Julio Panelli and son, John Panelli and Mr. and Mrs. Max Mullen. Panelli is past commander of the Banner Mountain Post.

The group brought with them good news for the July Fourth celebration committee. The Albany Junior Veterans of Foreign Wars band, which won first prize in competition at the encampment, will be on hand to perform in the Fourth parade here Thursday.

DOWNIEVILLE IN BIG FOURTH FETE

Downieville has made elaborate arrangements for a two day July Fourth celebration.

A carnival has already arrived in Downieville to add life to the celebration.

The proceeds from the fete will go to the Downieville Volunteer Fire Department.

Bill Meyers is general chairman of the committee of businessmen arranging Fourth plans. Tony Lavezolla is chairman of the parade committee; Ray Herrera the dance committee; Frank Delaney and Stanley McCormack, co-chairmen of the decorations commitee; R. M. Scott, finance committe and Vic Cassidy, publicity committee.

The celebration will officially start with a dance on the night of the 3rd at the Memorial Hall. Concessions of all kinds will entertain the crowds.

Thursday's feature will be the parade at 2 p. m. followed by a patriotic program. Because of fire danger, the committee has decided not to have a fireworks display.

WILL ENJOY HOLIDAY

The 340 employees of the Lava Cap Mines worked yesterday to earn a two day holiday for the Fourth.

The Lava Cap men will receive Thursday and Friday off, returning to work on Saturday. Next Sunday the men will be off work again resuming the regular routine.

STATE EMPLOYES WARNED NOT TO DO "POLITICS"

SACRAMENTO, July 1.—(UP)—Employes of the California department of employment today came under a strict ban on any type of political activity, following the action of the employment commission in adopting provisions of the federal Hatch "clean politics" law.

The order bans nearly every type of political action, and punishment for violation is dismissal. R. G. Wagenet said all state civil service employes in headquarters and the department's 79 field offices are affected.

The regulation is part of the approved standards for personnel administration set by the social security board for state agencies receiving funds under the federal social security program.

"Definitions of political activity as laid down by the United States civil service commission," Wagent said, "are not stringent when viewed in the light of career service, nor are the obligations of our employes any more than is required of public servants operating under federal regulations."

Included in the regulations as prohibited political activity are:

Serving on any political committee or party; as officer of a political club; addressing such a club; organizing or conducting political rallies or taking any part therein except as a spectator, and soliciting support for any party, faction candidate or measure.

FISHERMEN FIND FLIES BEST LURE

The popularity of Nevada and Sierra County fishing streams and lakes is shown by the number of cars passing through here loaded with camping and fishing equipment.

The fishing is now the best of the season. Game Warden R. E. Tutt at Downieville reports the fishing excellent in that vicinity with flies as the best lure in both lakes and the streams.

E. M. Stone of the Tahoe National Forest Service said fishing is apparently good in Donner Lake, judging from the number of anglers on the lake with boats. He said large fish are being caught in Lake Tahoe.

Approximately half of the fires are believed to have started by cigarettes thrown from automobiles.

The state crew fought three fires since last Friday. Brush and grass fires on the old Moody Ranch on the Loke Vera road and the Frank Hill Ranch west of Grass Valley were believed to be incendiary. Yesterday morning the fire fighters extinguished a blaze near Cashin's Field before serious damage was done.
